

CLOUD STORAGE

Reliable Storage for Your Video Footage

OVERVIEW

Vocal IP provides secure, scalable cloud storage designed for video footage management. Whether it's surveillance footage, live-streams, or large video libraries, our infrastructure is optimized for high-volume files, ensuring seamless integration with your existing systems. By using Vocal IP's cloud services, businesses can eliminate the need for on-premises storage, reduce costs, and rely on a redundant, secure environment for their critical video assets. With 24/7 accessibility, your footage is always readily available whenever and wherever you need it.

KEY BENEFITS

Security & Compliance

Industry-leading security with end-to-end encryption, multi-factor authentication, and advanced data protection protocols

Scalability

Effortlessly scale your video storage, paying only for what you need while accommodating growing archives.

Accessibility

Enjoy 24/7 seamless access to all your stored video footage directly through your Video Management System (VMS)

Redundancy & Uptime

Redundant systems ensure that your video data is stored safely with a 99.99% uptime guarantee

Cost Efficiency

Reduce capital expenditures associated with physical storage infrastructure and ongoing maintenance costs with our flexible pricing

FEATURES

Storage

- ✓ High-volume storage capacity
- ✓ Scalable architecture
- ✓ Flexible retention periods
- ✓ Redundant storage across multiple locations
- ✓ Cloud-based storage upgrades
- ✓ Extended video retention periods

Security

- ✓ End-to-end encryption
- ✓ Multi-factor authentication
- ✓ Automated compliance audits
- ✓ Advanced access controls
- ✓ Backup generator plants
- ✓ Backup power
- ✓ Data loss prevention (DLP)

Certifications

- | | |
|-------------------|-------------------|
| ✓ SOC 2 Type II | ✓ ISO 27001 |
| ✓ HIPAA Compliant | ✓ CJIS Compliance |
